

STEP 1

1

GO UP**Move to High Ground**

Immediately move to the highest accessible floor or roof of your building in the society. Get as high as you can safely go.

STEP 2

2

AVOID**Do NOT Walk in Floodwater**

Do NOT walk or drive through any floodwater; it can hide serious dangers like currents or debris. If safe, switch off your main electricity

STEP 3

3

POWER OFF**Switch Off Electricity**

Call 112 for emergency services as soon as you are in a safe spot. Tell them your precise location within the society.
