

STEP 1

1

CALL 108**Call Ambulance: 108**

Call 108 immediately for an ambulance. Clearly tell them your location and what happened.

STEP 2

2

DON'T MOVE**Do NOT Move the Victim**

Do NOT move the victim at all. If there is a wound, apply firm, steady pressure directly onto it to stop bleeding.

STEP 3

3

PRESS**Apply Pressure to Wound**

Talk to the victim to help them stay conscious. If they stop breathing and you are trained, begin CPR immediately.
