

STEP 1

1

CRAWL**Stay Low — Crawl Under Smoke**

Smoke rises quickly in the building, so stay low and crawl out. Cover your mouth and nose with any cloth you can find to protect your lungs.

STEP 2

2

COVER**Cover Mouth & Nose**

Before opening any door, feel it with the back of your hand. If it's hot, do NOT open it; find another exit and always use the stairs.

STEP 3

3

STAIRS**Use Stairs Only**

Once you are safely outside the building, immediately call the Fire Brigade on 101. Tell them your exact location and details of the fire.
